Letter from Katalina Conti  
Chief Executive Designer  
Mariposa Decorative Design Canada

---

# Spreading inspiring design.

I hope my letter finds everyone healthy and safe. It was an incredibly busy summer and busy beginning to the autumn. Although I'm truly grateful that we are producing beautiful results within Mariposa. My darling children are back at school, and they are all so happy to be reunited with their friends. I am sure many people can relate to the back to school scenario, and I hope that this year for everyone has been a smooth transition from the passing social restrictions. In this autumn issue of Bedazzle, I share the full spectrum of products and services that I offer to both my existing and also potential clients in particularly the Greater Toronto Area, although also in new markets that I have expanded to across Canada and also throughout the world.
