OUR GOAL

IS TO MAKE A MEASURABLE DIFFERENCE!

HELPING OUR FELLOW CANADIANS

At Mariposa, we are extremely proud to be founded as a Canadian company.

Helping the communities where we conduct business, delights us to no end.

When we raise the Flag of "Our Beloved Canada" on the pole erected on the lawns of the buildings where our company operates across the country and abroad, there is a sense of pride that overwhelms us. We among Team Mariposa believe that because we are Canadian, making a measurable difference comes natural.

OUR EFFORTS EXCEED EXPECTATIONS...

OUR ULTIMATE PERFORMANCE FOR PHILANTHROPY.

Since 1962, Mariposa has been at the top of our game when it comes to interior painting across Toronto and surrounding areas. We know what it takes to create wonderful results that will beautify the interior and exterior of your residential, commercial, or institutional property.

Our philanthropic task is to transform your vision into a reality, while staying within the parameters of your desire and timeline. We're not just another painting company trying to do good, we are a premier painting and decorating service provider with a reputation that is second to none!

Your interior or exterior painting and decorating project matters for a number of reasons, and not just because it enhances the visual aesthetics. So make sure you contact the best painting and decorating company that delivers the finest results, each and every time!

Improve your space with Mariposa's Philanthropic Interior Painting and Decorating.

When you're concerned about curb appeal, you focus on exterior painting, although when you want to change the ambiance, it's all about interior painting. Our philanthropic task is to help you enhance your home or business with professional painting.

You'll be able to enjoy advantages such as:

- Aside from receiving a complete interior makeover, this is the easiest way to dramatically change the appearance. The colours we assist you with selecting, will have a significant impact on how your residential, commercial, or institutional property will look like; which could include light colours that make the space look larger for instance. No matter what you choose, the result will revamp the look of the property.**
- Painting is a fantastic way to personalize your living or working space. When you own or maintain a home or commercial building, it doesn't quite feel like it's yours yet, until you take care of custom details. We recommend that you place your signature on the property by creating the interior look you want.**
- Fresh and high-quality paint can also help protect the walls much better. While the paint may not be able to guard against dings, it can protect against dirt from daily wear and tear, as well as moisture which leads to mildew and mold.**

Improve your space with Mariposa's Philanthropic Exterior Painting and Decorating.

Mariposa is the right philanthropist motivated company to contact when you need exterior painting and decorating. Your exterior painting and decorating project isn't just a matter of personal preference. In many cases, it's also a priority, and we can cater to both.

While exterior painting and decorating, or even interior for that matter, are not tasks you should do yourself, although you should still be familiar with the process involved. There's nothing wrong with wanting to improve your residential, commercial, or institutional property, however you should leave it to the experts who care.

The walls will need to be pressure washed. Before painting, we'll need to start with a clean surface. Otherwise, our painting will trap dirt and make it look like blemishes, as well as fail to adhere to the surface properly. This process also makes it easier to find damaged areas, which is the next thing we will address. The overall process improves the quality of the surface, and means you won't have to deal with painting for a lengthily period of time. Our painters will then remove old, loose paint, and caulk trim. After that, it's about protecting doors, windows, and lights, plus other immovable outdoor details like shrubbery. All of this preparation is why this project is much more intensive than most people realize.

Finally, the exterior painting and decorating begins. Once completed, we will have most likely exceeded your expectations.
