ABOUT OUR SERVICES

Mariposa offers industrial painting services for all industry building structures and facilities including infrastructure. Our certified industrial painting technicians will provide your commercial or institutional property with the finished results that you most desire.

Mariposa is among Canada's best sources for outstanding industrial painting services at exceptional prices. We do both interior and exterior painting. Our industrial painting services includes exterior and interior surfaces and structures. All of our industrial painting technicians are certified, fully-trained, insured and bonded. They provide fast, cost effective, professional solutions for all industrial painting needs.

SERVICING OFFICE BUILDINGS

Mariposa is your best source for full-scale of expertise services for industrial painting. Our painters are experienced professionals that know how to deliver the pristine result that clients deserve and require.

We completely prep office space for flawless painting results including moving furniture and equipment, and protecting the office building environment during the painting process. Our industrial painting services revolve around delivering exceptional quality and are backed by our service 5-year warranty.

NEW CONSTRUCTION SITES

Mariposa can assemble an industrial painting and design team that operates 24/7 and can enable minimal disruption to your property conditions and operations. Our painters especially are capable of working to accommodate schedules with adaptability. Mariposa assigns an industrial design and project manager that are always readily available for consultation with architects.

Our industrial painting technicians do exact colour matching to maintain image guidelines for business and institutional brands. Mariposa only uses high-durability and zero-VOC paint coatings for high-traffic areas.

INDUSTRIAL

BUILDING

STRUCTURES

Mariposa's certified painting professionals provide services for both interior and exterior industrial building structures that includes warehouse facilities. Such services involve pressure washing, full prep services and painting of steel deck ceilings, walls, safety lines, concrete block, metal surface restoration and metal siding repairs. Are you looking to dramatically boost ambient lighting intensity without increased energy costs or in need of a durable epoxy floor coating or other specialty painting service? Rely and trust Mariposa to address all of the specific and most important details.
