

# SUSTAINABILITY

# REPORT

**2023-2024**

# SUSTAINABILITY

## Our top priority list

- 01.** Build even more innovative and ecologically efficient homes.
- 02.** Make renewable energy integration more affordable and more widely accessible.
- 03.** Continue to enhance our manufacturing processes so that they are even more ecologically efficient.
- 04.** Recycle even more efficiently throughout our facilities and project sites.
- 05.** Increase our promotion of ecologically efficient construction materials and solutions to our clients.
- 06.** Advance and increase our inventory of organic and natural products.
- 07.** Operating environmentally cleaner construction equipment.

# COMMITMENT

“We are committed to regaining trust with our clients through transparency, integrity and, above all else, safety. I see so much potential to continue to innovate and do more as we define a sustainable future of design and construction.”

**Francesca Conti**  
**Oversight Manager of**  
**Ecological Efficiency**

Mariposa is committed to protecting, connecting and exploring our world and beyond, safely and responsibly. Our commitment to sustainability is rooted in our company values and the way that we service our clients' needs and expectations. Our focus is to maintain proficiency with environmental stewardship, social progress and inclusion as well as values-based, and transparent governance. In our 2023-24 Sustainability commitments, we provide our clients a comprehensive view of Mariposa's achievements and progress over the past year as well as our path toward a sustainable future of design and construction.

# MESSAGE FROM OUR CEO

"The property improvement and development industries play a profound role in the Canadian economy. Safety will always be our top priority. Our sustainable objectives represent an opportunity for us to define our next chapter together, with a focus on reducing carbon emissions and enabling Canada to be a much cleaner nation. These efforts make it possible for the next generation of our construction workers to continue to enjoy rewarding careers, strengthen the fabric of the communities where we operate, and collaborate within the industries where we conduct business for environmental stewardship, social progress, and transparent governance."

**"By building more smarter homes and buildings, we are improving the environment by each project."**

Mariposa's mission is to build smarter, maintain smarter, and consistently provide smarter solutions that protect the environment. Each day, we are dedicated to fulfilling our mission—safely and responsibly. We among Team Mariposa are pursuing sustainable construction together because we know it is imperative, and because our teammates are committed to enabling Canadian society that surrounds us, to improve for future generations.
